COMPANION FOR LIFE

Founded by Karl Elsener in 1884, Victorinox is renowned worldwide for its first creation, the Original Swiss Army Knife. This modest yet worldwide beloved object inspires all the Victorinox product lines, including the Victorinox Swiss Army timepieces.

For 128 years, Victorinox has accompanied people in their life experience, portraying our country's greatest achievements through products that became iconic for ultimate Swiss quality and know-how.

Victorinox Swiss Army timepieces have earned the trust and love of our customers because they do not just seek to meet customer expectations but

to exceed them thanks to a careful attention to details. This is why we confidently offer 3-year warranty on all our timepieces.

From functionality to innovation, from iconic design to quality, Victorinox Swiss Army ensures that every timepiece we design, engineer and manufacture, like the Swiss Army Knife that inspired it, turns into a true "companion for life".

Alexander M. Bennouna
CEO, Victorinox Swiss Army Watch SA

1884

Karl Elsener opens a cutlery workshop in Ibach-Schwyz with the support of his mother Victoria.

1891

Initiated by Karl Elsener, the Swiss Cutlery Union is founded. Karl Elsener and his co-workers deliver soldier's knives to the Swiss Army for the first time.

1897

The name "Swiss Officer's and Sport Knife" is legally protected on June 12. This model later becomes known around the world as the "Original Swiss Army Knife".

1909

Following the death of his mother, Karl Elsener introduces the brand name "Victoria" in her honor. The company's founder legally registers the distinctive emblem with the cross and shield as a trademark. It is now a registered trademark in more than 120 countries.

1921

The invention of stainless steel being of central importance for the cutlery industry, Karl Elsener coins the company's new name, "Victorinox" by combining his mother's name "Victoria" with "inox". (Inox is an abbreviation of the French word "inoxidable", which means stainless).

1931

The Brown Boveri Company sets up the world's first fully electric heat treatment facility for Victorinox.

1945

The "Original Swiss Army Knife" begins its successful progression around the world and is particularly popular in US Army PX stores.

1979

On January 2, the previously solely-owned "Messerfabrik Carl Elsener" is converted to the family-owned company "Victorinox AG".

1984

The company doubles the size of its plant and office space with 810 employees generating revenue of more than CHF 80 million.

**1989**

Victorinox's American distribution partner enters the timepiece market in the USA under the "Swiss Army Brands, Inc." label.

1992

The company opens its own sales subsidiary in Japan. Further subsidiaries follow in subsequent years.

1999

Victorinox enters the travel gear market, issuing a manufacturing license to the American TRG Group in St. Louis. Expanding its timepiece business, the company establishes Victorinox Watch SA in Bonfol, in Switzerland's Jura watch-making region.

2000

The Victorinox Foundation is set up. It holds 85% of the shares in Victorinox AG. A further 15% are held by the charitable Carl and Elise Elsener-Gut Foundation.

2001

Victorinox apparel is introduced in the USA. The first Victorinox Flagship store opens its doors to the public in New York's trendy Soho district.

2002

The publicly traded US distribution partner Swiss Army Brands Inc. is privatized. The timepiece brand Victorinox Swiss Army is launched internationally.

2003

Victorinox takes over the US-American company Wenger NA, including the fragrance label "Swiss Army Fragrance".

2005

Victorinox takes over the traditional Swiss cutlery and watch manufacturer Wenger SA in Delémont in the Swiss Jura.

2006

Victorinox Swiss Army moves to its new watch production facility in Porrentruy, in the Swiss Jura, to meet the increasing demand and to ensure high-quality timepieces.

2007

Victorinox sets up Victorinox Swiss Army Fragrance AG based at its head office. The former Wenger fragrance line is repositioned in the market and is branded with the Victorinox emblem.

2008

The company's first European Flagship store opens on London's New Bond Street.

2009

Geneva City hosts first Victorinox Flagship store in Switzerland. 125 years after its foundation, Victorinox now employs more than 1800 employees worldwide and generates revenues of around CHF 500 million.

2011

The success story continues, opening the Flagship store in Düsseldorf.

2012

Launch of the first Victorinox Global Brand Campaign with our customers' stories that give our brand a face. These stories tell how our products proved themselves in real life as a companion during significant, dramatic or lighthearted moments.

Each Victorinox Swiss Army timepiece embodies the spirit of the legendary Original Swiss Army Knife, a universal symbol of functionality, innovation, quality and iconic design.

FUNCTIONALITY

Our timepieces are designed to optimize their usefulness. Functionality ranges from easy-to-read dial designs to sophisticated professional functions. Every design detail is purpose-based. Functions are never add-ons or embellishments. The goal is to create watches that are timeless.

INNOVATION

Victorinox Swiss Army constantly enhances its timepiece lines with new design elements and innovative functions while seeking creative ways of upgrading existing components to enhance their capabilities.

QUALITY

Victorinox Swiss Army timepieces are designed and manufactured with the same rigorous attention to quality as the brand's legendary Pocket Tools. They also meet the highest standards of the Swiss watchmaking industry. The quality controls and testing that every timepiece undergoes (material, movement, assembly, finishing, etc.) allow Victorinox Swiss Army to offer a 3-year limited warranty.

ICONIC DESIGN

The Original Swiss Army Knife is one of the world's most functional pieces of design. Victorinox Swiss Army timepieces share this icon's spirit and heritage. They are multi-functional precision instruments engineered to last, yet also timeless and contemporary in design.

AIRBOSS MACH 8

The AirBoss Mach 8 Special Edition is equipped with top-level sophisticated mechanical self-winding movement, insuring precision and robustness, while offering an exhibition caseback to view the mechanisms. It also features the same enhanced functionality pioneered by Victorinox Swiss Army by having

its movement rotated 180° clockwise, bringing the start/stop chronograph pusher to 8 o'clock for optimal thumb operation.

A professional compass device will accompany this Special Edition. Each set is presented in a unique Collector's Box packaging.

INFANTRY VINTAGE

The look of the Infantry Vintage Mechanical is refined: the tone-on-tone color block combinations set it apart. So, too, does its dial presentation: three bold hands and three circles of indicators — 24-hour military markers in the middle, oversized Arabic hours around them, and a 60-minute/second track with 5-second intervals at the dial periphery.

OFFICER'S

CLASSIC COLLECTION
OFFICER'S

The Officer's watch owes its name to the first knives that were given to officers of the Swiss Army from 1891 onwards. Combining tradition and modernity, its curved lines evoke the rounded contours of the Swiss Army knife. Quality, masculinity, harmony and refinement characterize this collection. In a nod to classic watchmaking models, the seconds hand of the mechanical version has been tinted blue to highlight the fluidity of the movement.

DISCOVER VICTORINOX

PUSCHLAV (SWITZERLAND), 2005

THE HELPER

During an excursion to the Swiss mountain region of Puschlav, our train stopped suddenly on the tracks. Curious, my wife and I stuck our heads out of the window to see thick smoke coming from one end of the train. The train conductor and driver had disembarked the train, discussing rapidly how best to deal with the problem. Finally, a passenger seated under our window asked for a pocket tool. I dug out my Victorinox Swiss Army Knife. A few minutes later following some amateur engineering, the train began moving again. The conductor later returned my Swiss Army Knife, saying he'd used it to fix the loose stud bolt of the brake hose. He thanked me excessively – as if I were a hero. I decided to suggest to the Swiss Federal Railways (SBB) that all members of the train crew be equipped with Victorinox Swiss Army Knives.

Dieter Portmann, August 2005

Victorinox products are a companion for life. What experiences have you had with Victorinox products? Share your story at victorinox.com

VICTORINOX

COMPANION FOR LIFE

VIS (CROATIA), 2009

THE TREASURE

As a fisherman diver on the Croatian island of Vis, I regularly pulled special things out of the sea: not only sea urchins, crabs and squid, but also personal items. Once I saw something sparkling down below on the sea bed. I dove deeper and there it was... a Victorinox Swiss Army Watch. Engraved on the back were the words "Félicitations Docteur F. Millet" and it was still running! I decided to reunite Mr. Millet with his watch as he had most likely spent his holidays here. Through the Internet, I traced the watch back to its owner, Dr. François Millet, a French diving enthusiast who had been on holiday in Vis two months before. I shipped the watch back to Dr. Millet, who was delighted to have his precious watch returned to him after two months lost at sea.

VICTORINOX

COMPANION FOR LIFE

NEW YORK (USA), 2011

THE GUARDIAN

I had been trying for months to schedule a business meeting with a potential new client. I knew this was my big chance when I finally secured the appointment. I packed my presentation materials and a projector in my suitcase and headed to the airport. I was waiting for my luggage at baggage claim when I noticed that all of the bags on the carousel were soaking wet from the rainstorm outside. As my bag approached, it was in no better shape than the others – it looked like it had been dropped in a puddle. I started to feel sick thinking my presentation materials had been ruined. I grabbed my bag and unzipped it, expecting the worst. To my surprise, everything inside was dry. I was so relieved and to top it off, my presentation was a huge success. I am so thankful for Victorinox's commitment to quality. My luggage has never let me down.

VICTORINOX

COMPANION FOR LIFE

COLOGNE (GERMANY), 2010

THE COMPLIMENT

During the breakfast shift at a design convention in Cologne, the restaurant had a brisk air of coming and going. As a young hotel professional still conducting my training, I had my hands full. A guest from Spain was very unhappy when he arrived. Since all of the other tables were full, I had to console him. Later, he complained audibly about the coffee. I normally can't stand guests like him, but he was different. Not because he had striking Mediterranean looks, but instead because he smelled really good which I told him. He then became really nice and talkative. He said people kept giving him the same compliment. Shortly after leaving, he came back to the restaurant and gave me a lovely little bottle of his perfume from Victorinox. His gift still often reminds me of how just a little gesture can turn a bad day to good.

VICTORINOX

COMPANION FOR LIFE

STOCKHOLM (SWEDEN), 2009

THE COMPANION

When I returned back to my Stockholm hotel from a business dinner, it was past midnight, the door was locked, and the key was upstairs in my room. I was stuck outside in zero-degree weather with a strong wind blowing. Despite the weather, I was comfortable in my second skin – an "Explorer" jacket from Victorinox. It awakened my desire to explore the city. I marched through nighttime Stockholm, enjoying having all of the time in the world in the endless night and being comfortably warm while doing so. As the day dawned, I entered a small café and hung my "Explorer" jacket over the arm of the chair and looked forward to the day ahead.

AUTHENTICITY

If it does not have our Cross and Shield emblem and Victorinox Swiss Army on the dial, it is not an authentic Victorinox Swiss Army timepiece. Ours are the only timepieces authorized by the Swiss government to carry the name Swiss Army.

PAPER

This catalogue is completely made from residues of sugar cane instead of wood.

SWISS MADE & WARRANTY

Every Victorinox Swiss Army timepiece is Swiss Made and covered by a 3-year warranty, which is more than the average offered by the top-quality brands in the watch industry.
